Corel PaintShop Pro After you download and open the program, you can find a Welcome Screen that shows you the current workspace, the Settings

Menu, and some other buttons that are used throughout the rest of PaintShop Pro (see Figure 8-1). In the program, you have a toolbar at the top of the screen. The palette is a small, colorful and active area that enables you to select colors, change brush properties, and paint with your mouse. **Figure 8-1:** The Welcome Screen shows you the current workspace and a few useful icons. To explore the workspace, select the **Workspace** tab at the top of the screen, which is shown in Figure 8-2. If you need additional help, you can turn on the Tutorials. When you select the **Help** tab at the top of the screen, you see a popup message that says, "The tutorials are available via a Help link in the upper-right corner of the window."
