inocencia entre las partes, según los argumentos presentados por la Fiscalía de Nueva Casa Grande. La "nueva" cúpula de La Cámpora es la misma que el 17 de mayo de 2019 fue detenida por la nueva causa sobre los resultados falsos de las elecciones legislativas de 2015. person. In the past, when a relative of a person who is to be examined (a candidate in an examination, a test subject, etc.) was to take an examination (an entrance examination for a university, etc.), the relative visited the examination place where the examination was held. Although the examination itself was conducted, the examination conditions differed from one place to another. Therefore, the relative of the person to be

examined had to cope with different examination conditions in each place, which was cumbersome. For this reason, there was proposed a technique of facilitating a relative of the person to be examined to take an examination (see, for example, Patent Document 1). According to this technique, portable information acquisition equipment is provided to the relative of the person to be examined, and this information

acquisition equipment is used to acquire information that matches the examination conditions.
